Napoleon Perdis Camera Finish Setting Spray

Napoleon Perdis Camera Finish Matte Setting Spray is a versatile, lightweight solution for achieving a smooth, matte makeup finish while controlling unwanted shine. This vegan formula can be applied immediately after makeup application or used throughout the day to refresh and mattify the complexion. The spray's effectiveness lies in its carefully selected ingredients, including Aloe Vera Leaf Juice and Sodium Hyaluronate, which work together to lock in hydration and keep makeup looking fresh.

These skin-conditioning components not only help maintain a matte appearance but also provide soothing and moisturising benefits to the skin. The product features a super smooth spray applicator that dispenses a fine, undetectable mist, ensuring even coverage without disturbing makeup.

Whether you're looking to extend the wear of your makeup, combat shine, or simply refresh your look throughout the day, the Camera Finish Matte Setting Spray offers a convenient and effective solution.

HYRO Electrolytes

Water alone does not hydrate you. Hydration requires electrolytes. Sodium moves water into cells. Potassium supports muscle and nerve function. Magnesium supports energy and recovery.

Modern diets, sweat, caffeine, alcohol, heat, and exercise all deplete electrolytes daily. Without replacing them, water passes straight through.

With proper hydration you experience:

- Less thirst
- More focus
- Steady energy
- Fewer headaches
- Better muscle recovery
- Skin support

Choose from Lemon & Lime, Orange & Mango, Blackcurrant, Watermelon or a mixed bag.
